CITATION AND ORDER

ILLEGAL MARKETING OF UNAUTHORIZED RADIO FREQUENCY DEVICES

Adopted: January 17, 2013

Released: January 17, 2013

By the Acting District Director, New York Office, Northeast Region, Enforcement Bureau:

I. INTRODUCTION

1. This is an official **CITATION AND ORDER** (Citation) issued pursuant to Section 503(b)(5) of the Communications Act of 1934, as amended (Act),¹ to SECURITY-CAMERAS-CCTV.COM (CCTV) for selling unauthorized wireless camera surveillance systems in the United States in violation of Section 302(b) of the Act,² and Sections 2.803(a)(1) and 15.201(b) of the Commission's rules (Rules).³

2. CCTV should take immediate steps to come into compliance and to avoid any recurrence of this misconduct, including such actions as removing unauthorized wireless camera surveillance systems from CCTV's on-line store and declining to sell unauthorized wireless camera surveillance systems in the United States. As explained below and as provided in the Act, future violations of the Act and the Rules in this regard may subject CCTV to substantial monetary penalties, seizure of equipment, and criminal sanctions. Pursuant to Sections 4(i), 4(j), and 403 of the Act,⁴ we also direct CCTV to confirm within thirty (30) calendar days after the release date of this Citation that it has ceased to market unauthorized wireless camera surveillance systems and to provide information concerning its suppliers, distribution channels, and sales.

II. BACKGROUND

3. On November 29, 2011, agents from the Enforcement Bureau's Los Angeles Office investigated a complaint from the Federal Aviation Administration (FAA) concerning interference to the FAA's Terminal Doppler Weather Radar (TDWR) system in Las Vegas, Nevada. The agents traced the

interference to a wireless camera surveillance system installed at ExtraSpace Storage in Henderson, Nevada.⁵ The agents inspected the 5.8 GHz wireless video transmitter and observed that it contained neither an FCC identification number nor the name of a manufacturer. The contractor who installed the system reported to the agents that he purchased the device from CCTV's on-line store on May 23, 2011 and provided the agents a copy of the invoice confirming purchase of the device from CCTV on May 23, 2011.⁶

III. APPLICABLE LAW AND VIOLATIONS

4. Federal law requires that radio frequency devices be certified in accordance with the FCC's technical standards before they can be marketed in the United States. Section 302(b) of the Act provides that "[n]o person shall manufacture, import, sell, offer for sale, or ship devices or home electronic equipment and systems, or use devices, which fail to comply with regulations promulgated pursuant to this section."⁷ Section 2.803(a)(1) of the Commission's implementing regulations provides that "no person shall sell or lease, or offer for sale or lease (including advertising for sale or lease), or import, ship, or distribute for the purpose of selling or leasing or offering for sale or lease, any radio frequency device unless: "[i]n the case of a device subject to certification, such device has been authorized by the Commission in accordance with the Rules in this chapter and is properly identified and labeled...."⁸ Section 2.803(g) of the Rules provides in pertinent part that "radio frequency devices that could not be authorized or legally operated under the current Rules...shall not be operated, advertised, displayed, offered for sale or lease, sold or leased, or otherwise marketed absent a license issued under part 5 of this chapter or a special temporary authorization issued by the Commission."⁹ Section 2.803(e)(4) of the Rules defines "marketing" as the "sale or lease, or offering for sale or lease, including advertising for sale or lease, or importation, shipment or distribution for the purpose of selling or leasing or offering for sale or lease."¹⁰

5. Intentional radiators,¹¹ such as the transmitter component of the wireless camera system sold by CCTV, are generally required by Section 15.201 of the Rules¹² to be approved through the equipment certification¹³ procedures described in Sections 2.1031 – 2.1060 of the Rules¹⁴ prior to marketing within the United States. There is no evidence that the device sold by CCTV has received an equipment certification.

6. Accordingly, CCTV violated Section 302(b) of the Act and Sections 2.803(a)(1) and 15.201(b) of the Rules by selling the 5.8 GHz wireless video transmitter in the United States without prior Commission authorization. CCTV should take immediate steps to come into compliance and to avoid any
